For questions about Medicare, visit [Medicare.gov](https://www.Medicare.gov) or call (800) 633-4227. They are open seven days a week, 24 hours a day.

## Why is it important to choose a network provider?

In HMO plans, if you don't get your care and services from in-network healthcare providers, you must pay all costs out-of-pocket. Exceptions include emergency care, out-of-area urgent care or out-of-area dialysis.

With PPO plans, we always encourage you to use our network. PPO plans give you the flexibility to go to doctors, specialists or hospitals that are not in the plan's network, but it will usually cost more.

Check to see if your doctor is in our network. If not, choose from one of the many quality providers in the MedAdvantage network. Go to [MedMutual.com/Medicare](https://www.MedMutual.com/Medicare) and click on Find a Provider.

## Why should I choose a primary care provider (PCP)?

A primary care provider:

- Knows your health history and can help improve or maintain your quality of life
- Helps you coordinate your care with any specialists you need to see
- Helps address health concerns before they become health issues
- Gives you advice about health issues based on your own health history

## How can I get more information?

Call us at (866) 406-8777 (TTY 711 for hearing impaired). We can answer your questions and help you enroll. We can also:

- Tell you about benefits
- Help you find a health provider
- Review covered medications

You can always visit our website at [MedMutual.com/Medicare](https://www.MedMutual.com/Medicare) for more information.

# Healthcare Terms

## **Coinsurance**

An amount you may be required to pay as your share of the cost for the services or prescription drugs after you pay any deductibles. Coinsurance is usually a percentage (for example, 20%).

## **Condition**

An injury, ailment, disease, illness or disorder.

## **Copayment (Copay)**

The amount you pay to a health provider at the time you receive services. You may have to pay a copay for each covered visit to your doctor, depending on your plan. Not all plans have a copay.

## **Covered Service**

A healthcare provider's service or medical supplies covered by your health plan. Benefits will be given for these services based on your plan.

## **Deductible**

The amount you pay for your healthcare services before your health insurer pays. Deductibles are based on your benefit period (typically a year at a time).

*Example:*

*If your plan has a \$2,000 annual deductible, you will be expected to pay the first \$2,000 toward your healthcare services. After you reach \$2,000, your health insurer will cover the rest of the costs. You still must pay a copay.*

## **Medicare Advantage Plans** (like an HMO or PPO)

Also called Part C. Health plans run by Medicare-approved private insurance companies. Medicare Advantage plans include Part A, Part B and usually other coverage like Medicare prescription drug coverage (Part D).

## **Network Provider** (In-Network Provider)

A health provider who is part of a plan's network.

## **Non-Network Provider** (Out-of-Network Provider)

A health provider who is not part of a plan's network. Costs associated with out-of-network providers may be higher or not covered by your plan. Consult your plan for more information.

## **Optional Supplemental Benefits**

Services not covered by Medicare that enrollees can choose to buy or reject. Enrollees who choose these benefits pay for them directly, usually in the form of premiums and/or copayments or coinsurance.

**Original Medicare**

Fee-for-service health coverage through the federal government. Under Original Medicare, the government pays your health providers directly for your Part A and/or Part B benefits.

**Out-of-Pocket Cost**

Cost you must pay. Out-of-pocket costs vary by plan and each plan has a maximum out-of-pocket (MOOP) cost. Consult your plan for more information.

**Premium**

Payments you make to your insurance provider to keep your coverage. The payments are due at certain times.

**Prescription Drug**

Any medicine that may not be given without a prescription because of federal or state law.

**Provider (Health Provider)**

A hospital, facility, physician or other licensed healthcare professional.

# Understanding Medicare

**Your Guide to Medicare Coverage Options**

## We Have Your Medicare Answers

**As one of the millions of Americans eligible for Medicare, you are likely among the many who are overwhelmed with the volume of information about your healthcare coverage choices.**

**At Medical Mutual, we want to make it easy for you to break through the clutter. It is our goal to help you get the right facts about the right coverage for your lifestyle.**

**Whether you're just becoming eligible for Medicare, still insured through work and contemplating retirement or thinking about a change in Medicare coverage, this guide will get you on your way to understanding your options and making the choice that is best for you.**

# Understanding Medicare Parts and Plan Types

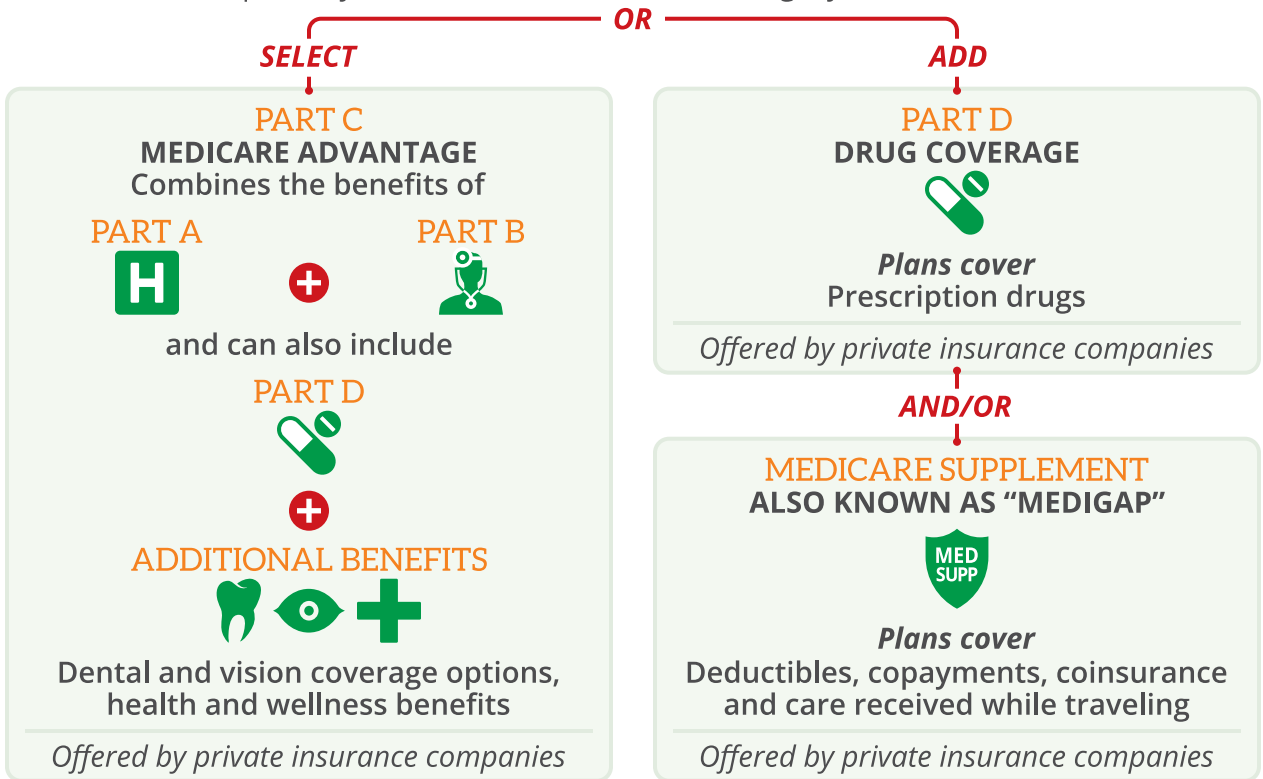

Medicare has several different parts, plus additional plan options, to help you get the best coverage for your needs. This section shows how the Medicare parts and plan types work together, with a brief description of each one.

## The Parts of Medicare

Step 1—Enroll in Original Medicare

Step 2—If you want more Medicare coverage, you have choices:

*You cannot enroll in both a Medicare Advantage plan and a Medicare Supplement insurance plan.*

## Part A and Part B (also called Original Medicare)

Original Medicare is provided by the federal government. It includes Medicare Part A and Part B. You cannot be turned down for Original Medicare coverage once you meet Medicare eligibility requirements.

Some people are automatically enrolled in Medicare Part A\* (hospital insurance). If you or your spouse paid Medicare taxes while working for at least 10 years, you will likely not have to pay a monthly premium for this coverage. You must have Part A to have Part B.

Some people are also automatically enrolled in Medicare Part B\* (medical insurance). You will pay a premium each month for Part B. Most people will pay the standard premium amount. However, you may pay more if your income is above a certain amount.

If you're not sure if you have Part A or Part B, look on your red, white and blue Medicare card. Look for "Hospital (Part A)" and/or "Medical (Part B)" printed on the lower left corner of your card. If you need to enroll in Part A or Part B, the easiest and most common way to enroll is to contact your local Social Security office or go online at [ssa.gov/medicare](http://ssa.gov/medicare).

### Part A and Part B at a Glance

Medicare Part	Plan Type	Coverage and Cost Considerations
Part A	Hospital coverage	<p><b>Coverage for medically necessary care requiring:</b></p> <ul style="list-style-type: none"> <li>■ An overnight stay in the hospital</li> <li>■ Follow-up nursing care after a hospital stay</li> <li>■ Hospice care</li> <li>■ Some home healthcare for the homebound</li> </ul> <p><b>Cost considerations:</b></p> <ul style="list-style-type: none"> <li>■ No premium (\$0) for most people</li> <li>■ Coverage automatically at age 65 if you worked and paid into Medicare for 40 quarters (10 years)</li> <li>■ Deductible, copays and coinsurance apply to services received</li> </ul>
Part B	Medical coverage	<p><b>Coverage for medically necessary services that don't require an overnight hospital stay, such as:</b></p> <ul style="list-style-type: none"> <li>■ Doctors' office visits</li> <li>■ Outpatient hospital or clinical care</li> <li>■ Lab tests and some screenings</li> </ul> <p><b>Cost considerations:</b></p> <ul style="list-style-type: none"> <li>■ \$104.90 monthly premium for 2015</li> <li>■ Premium can be automatically deducted from your Social Security checks, if applicable</li> <li>■ Deductible, copays and coinsurance apply to services received</li> </ul>

\*If you are automatically enrolled in Medicare Part A and Part B, you'll get your red, white and blue Medicare card in the mail three months before your 65th birthday.

## Medicare Supplement Insurance Plans (also called Med Supp or Medigap)

Medicare Part A and Part B do not cover every health expense. Medicare Supplement insurance plans are sold by private insurance companies and can help pay some of the healthcare costs that Original Medicare doesn't cover. You must have Medicare Part A and Part B to purchase a Medicare Supplement plan.

For 2015, there were 11 Medicare Supplement insurance plan options in Ohio, each offering a different combination of benefits with different levels of coverage. All Medicare Supplement insurance plans are standardized, and the plans are identified by letters. This means no matter which company is selling the plan, all plans identified with the same letter must have identical coverage. The only difference is the monthly premium.

Unlike some other types of insurance plans, Medicare Supplement insurance plans are not associated with a set network of doctors and hospitals. With this coverage, you can go to any doctor or hospital that accepts Medicare. Medicare Supplement insurance plans do not include prescription drug coverage (Part D). Most people who choose a Medicare Supplement insurance plan also buy a stand-alone Part D plan (see next section).

### Medicare Supplement Insurance Plans at a Glance

Medicare Part	Plan Type	Coverage and Cost Considerations
NA	Supplemental coverage	<p><b>Coverage for some costs that Original Medicare does not pay, such as:</b></p> <ul style="list-style-type: none"> <li>■ Deductibles</li> <li>■ Copayments</li> <li>■ Coinsurance</li> <li>■ Care while traveling outside the country</li> </ul> <p><b>No coverage for:</b></p> <ul style="list-style-type: none"> <li>■ Long-term care</li> <li>■ Vision care</li> <li>■ Dental care</li> <li>■ Prescription drugs</li> <li>■ Private-duty nursing</li> <li>■ Hearing aids</li> </ul> <p><b>Cost considerations:</b></p> <ul style="list-style-type: none"> <li>■ Monthly premium varies by company and age</li> <li>■ Usually ranges between \$100 and \$250 a month</li> <li>■ Some plans have an annual deductible</li> <li>■ Not all Medicare Supplement insurance plans cover 100 percent of the gaps in Original Medicare. Depending on the plan or coverage level selected, some deductibles, copays and coinsurance may still apply. Review each plan's coverage carefully.</li> </ul>

## Part D—Prescription Drug Coverage

In addition to medical coverage gaps, Original Medicare does not cover Part D prescription drugs. (Note: a limited number of outpatient prescription drugs are covered under limited conditions.) If you take prescription drugs and you are enrolled in Original Medicare, you can choose to enroll in a Part D plan offered by a private insurer. In general, there is a penalty if you delay enrolling in Part D when you are first eligible. If you have equal or better coverage from another source, such as a retirement plan, you will not be subject to the penalty.

If you have Original Medicare and/or a Medicare Supplement insurance plan, you can purchase a stand-alone Medicare Part D plan. You will pay a separate monthly premium for this. You can also get Part D prescription drug benefits through a Medicare Advantage (Part C) plan that includes built-in Part D coverage. When choosing a Part D plan, pay attention to its list of covered drugs, called the formulary. This will help ensure you have coverage for the medications you take.

### Part D at a Glance

Medicare Part	Plan Type	Coverage and Cost Considerations
Part D	Prescription drug	<p><b>Coverage for generic and brand prescription drugs, typically grouped in tiers:</b></p> <ul style="list-style-type: none"> <li>Lower-tiered drugs most often cost less than higher-tiered drugs</li> </ul> <p><b>Cost considerations:</b></p> <ul style="list-style-type: none"> <li>Monthly premium varies by company and coverage level</li> <li>Some plans include an annual deductible and/or coinsurance</li> <li>Copays apply</li> <li>No separate premium when purchased through a Medicare Advantage plan that includes Part D coverage</li> </ul>

## Part C—Medicare Advantage (also called MA or MAPD)

If you have Original Medicare, plus a Medicare Supplement insurance plan, plus a Part D plan, you are responsible for paying three separate premiums each month. You may have to call up to three separate organizations for assistance. A Medicare Advantage plan offers all of your Medicare benefits and customer service through a single plan. You still have to pay your Part B premium.

Medicare Advantage plans are offered by private insurance companies that contract with Medicare to provide you with all of your Part A and Part B benefits. Medicare Advantage plans replace Original Medicare as your primary insurance. In other words, if you join a Medicare Advantage plan, you still have Medicare, but all of your benefits are managed by one plan. You will only need to show your Medicare Advantage plan member card to receive all of your Medicare services.

Medicare Advantage plans include the benefits of Original Medicare and often the benefits of Medicare Supplement insurance plans, plus Part D drug coverage. Most plans also include extra benefits like vision, hearing, dental and/or health and wellness programs not featured in any other stand-alone plan option, sometimes at no additional cost beyond your Part B premium.

Medicare Advantage plans are associated with a set network of doctors and hospitals. When choosing a Medicare Advantage plan, pay attention to its list of doctors and hospitals to make sure you can continue to go to the providers you know and trust.

### Part C—Medicare Advantage at a Glance

# Enrolling in Medicare

Depending on your situation, there are several different opportunities to enroll in Medicare. The scenarios described in this section apply to enrolling in Original Medicare, as well as Part D and Medicare Advantage plans. Keep in mind you must have Medicare Part A and Part B before you can enroll in a Medicare Advantage plan or Medicare Supplement insurance plan. If you're entitled to Part A and/or enrolled in Part B, you can enroll in a Part D plan. (For more information on plan combinations, see the table on page 11.)

The best time to enroll in a Medicare Supplement insurance plan is during your six-month Medicare Supplement open enrollment period, which starts the month you are both more than 65 years old and enrolled in Medicare Part B.

## Enrolling at 65—Your Initial Enrollment Period

If you're approaching 65, you will likely be eligible to enroll in Medicare for the first time. There is a window of time around your 65th birthday, called the Initial Enrollment Period (IEP), to enroll. This window runs from three months before the month of your 65th birthday to three months after your 65th birthday. Talk to your employer if you have a group insurance plan.

*If you are enrolling in Medicare at 65 and will not be covered by a group insurance plan, enter the months of your IEP in the shapes below to see your seven-month eligibility window.*

## Enrolling at a Later Retirement Age

If you are still working and covered under your employer's plan when you turn 65, you may choose not to enroll in Medicare during your IEP. If this is the case, you will be eligible to enroll at a later age when you retire. When you retire, you have eight months to enroll in Medicare after your employment ends or after your group coverage ends, whichever comes first. There is no penalty for waiting until this time to enroll in Medicare.

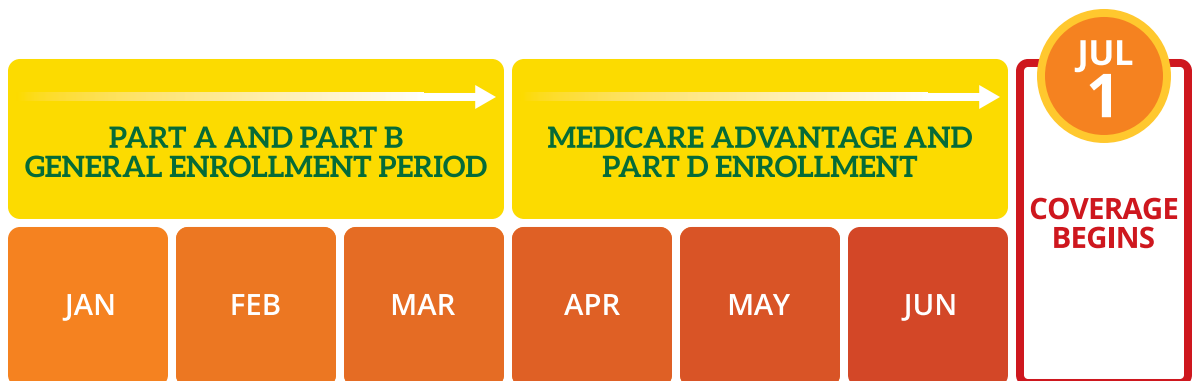

*If you are enrolling in Medicare when you retire after 65, enter the last month of your employment or group coverage, whichever comes first, and the next eight months in the shapes below to see your eligibility window.*

## General Enrollment Period

If you miss your initial eligibility window, you have another opportunity to enroll. You can enroll in Original Medicare again during the next General Enrollment Period, which occurs January 1 through March 31 each year.

*If you enroll in Original Medicare during the General Enrollment Period, you will then be eligible to enroll in a Medicare Advantage plan or a Part D plan from April 1 through June 30.*

If you enroll in Medicare during the General Enrollment Period, your coverage will start on July 1 of the same year. You may have to pay a higher premium for late enrollment in Medicare Part A and/or a higher premium for late enrollment in Medicare Part B.

## Changing Medicare Plans

If you are enrolled in Original Medicare, a Medicare Advantage plan or a stand-alone Part D plan, you may change or add plans during the Annual Enrollment Period (AEP). This period runs from October 15 through December 7 each year. With few exceptions, this is the only time you may add or switch Medicare Advantage or stand-alone Part D plans for coverage beginning January 1 of the next calendar year. It's ideal to choose your plan during this time because it is when the most options are available.

## Special Enrollment Periods (SEP)

Outside of your Initial Enrollment Period and the Annual Enrollment Period, you can make changes to your Medicare Advantage and Medicare prescription drug coverage when certain events happen in your life. These opportunities to make changes are called Special Enrollment Periods (SEP). Rules about when you can make changes and the type of changes you can make are different for each SEP. Here are some examples of situations that may grant you a SEP:

- You move
- You lose your current coverage
- You have a chance to get coverage outside of Medicare, e.g., through a spouse or employer
- Your plan changes its contract with Medicare
- You become eligible for both Medicare and Medicaid
- You qualify for extra help paying for Medicare prescription drug coverage
- You are enrolled in a State Pharmaceutical Assistance Program or lose eligibility for one
- You have a severe or disabling condition, and there's a Medicare Chronic Care Special Needs Plan available that serves people with your condition
- You are enrolled in a Special Needs Plan and no longer have a condition that qualifies as a special need that the plan serves

If you have any questions, or have a unique situation that is not on this list, call Medical Mutual at (866) 406-8777 (TTY 711 for hearing impaired). We can help determine if you qualify for a Special Enrollment Period.

# Choosing a Plan

**Once you understand your Medicare options, choose the level of coverage that best meets your needs.**

## Factors to Consider

### **How much you pay in monthly premiums**

Monthly premiums may include costs for Part B, in addition to costs associated with the plan(s) you select for additional coverage. Premiums for Medicare Advantage, Medicare Supplement insurance plans and stand-alone Part D plans will vary by level of coverage and insurance provider. There are often \$0 premium plans available with Medicare Advantage. If you are considering your total out-of-pocket costs, generally, the higher your monthly premiums, the lower your copays and deductibles will be. Consider how often you may need to see your doctor and what would be a better value for you.

### **Prescription drug coverage**

Original Medicare and Medicare Supplement insurance plans do not include prescription drug coverage. You can get Part D prescription drug coverage with most Medicare Advantage plans, or you can purchase a stand-alone Part D plan. If you regularly take prescription medication, it may make sense to choose a plan that provides Part D coverage.

### **Selecting your own doctor**

Original Medicare and Medicare Supplement insurance plans allow you to go to any doctor or hospital as long as they accept Medicare. Medicare Advantage plans have networks of providers, and some plans are more flexible than others. If you have a primary care physician or a specialist you would like to see, check the network associated with each plan to make sure they are included.

### **SilverSneakers® and other benefits**

Benefits like SilverSneakers fitness program membership, over-the-counter drugs and supplies, a 24-hour nurse line and wellness programs like those designed to help members quit smoking are included in some Medicare Advantage plans at no extra charge. Determine how much you're paying out of pocket for these costs and determine if these benefits are included in the Medicare Advantage plan you are considering. You may save money if they are included.

## Plan Combinations for Optimal Coverage

## Calculating Costs

When you start to consider your plan options, one of the best ways to compare them is to look at the benefits and costs side by side. Although this guide does not show specific plans from private carriers, the chart below provides a general comparison by Medicare Part/Plan. See the definitions on page 12 to help you understand the costs shown in the chart.

Medicare Part/Plan	Monthly Premium	Deductible	Copays	Coinsurance
Part A	\$0 for most people	\$1,260 per benefit period	\$315 per day begins after 60 days in the hospital per benefit period	Only for certain services
Part B	\$104.90 standard premium	\$147 per year	Required for outpatient services	You pay 20%; Part B pays 80%
<b>Most Common Additions — Scenario 1</b>				
Medicare Advantage (HMO/PPO, including Part D)	As low as \$0	As low as \$0	As low as \$0, but can vary widely	0% in most cases, however coinsurance for Part D drugs and out-of-network services apply
<b>Most Common Additions — Scenario 2</b>				
Medicare Supplement Insurance Plans	From \$116 to \$215 for Plan F, age 65–69 (most popular)	Varies from plan to plan	\$0, however copays for Parts A and B apply to some plans	0%, however coinsurance for services covered by Parts A and B apply to some plans
Stand-alone Part D	From \$15.60 without gap coverage to \$114 with gap coverage	From \$0 to \$320	From \$1 for generics to \$90 for brand-name drugs	As low as 0% or as high as 100%; often applied to higher-tiered drugs

This chart does not include a comprehensive list of benefit/cost details for the plan types shown. For more information, contact Medical Mutual or go to [medicare.gov](http://medicare.gov). All costs are for 2015 from the federal government and Ohio providers and may change for 2016.

## Helpful Medicare Definitions

### **Premium**

Payments you make to your insurance provider to keep your coverage. The payments are due at certain times.

### **Deductible**

The amount you pay for your healthcare services before your health insurer pays. Deductibles are based on your benefit period (typically a year at a time).

*Example: If your plan has a \$2,000 annual deductible, you will be expected to pay the first \$2,000 toward your healthcare services. After you reach \$2,000, your health insurer will cover the rest of the costs. You still must pay a copay.*

### **Copayment (Copay)**

The amount you pay to a health provider at the time you receive services. You may have to pay a copay for each covered visit to your doctor, depending on your plan. Not all plans have a copay.

### **Coinsurance**

An amount you may be required to pay as your share of the cost for the services or prescription drugs after you pay any deductibles. Coinsurance is usually a percentage (for example, 20%).

## 5. Paying Your Plan Premium

**You can pay your monthly plan premium (including any late enrollment penalty you currently have or may owe) by mail or Electronic Funds Transfer (EFT) each month. You can also choose to pay your premium by automatic deduction from your Social Security or Railroad Retirement Board (RRB) benefit check each month.**

**If you are assessed a Part D-Income Related Monthly Adjustment Amount (IRMAA), you will be notified by the Social Security Administration. You will be responsible for paying this extra amount in addition to your plan premium. You will either have the amount withheld from your Social Security benefit check or be billed directly by Medicare or RRB. DO NOT pay Medical Mutual the Part D-IRMAA.**

People with limited incomes may qualify for extra help to pay for their prescription drug costs. If eligible, Medicare could pay for 75 percent or more of your drug costs including monthly prescription drug premiums, annual deductibles and coinsurance. Additionally, those who qualify will not be subject to the coverage gap or a late enrollment penalty. Many people are eligible for these savings and don't even know it. For more information about this extra help, contact your local Social Security office, or call Social Security at (800) 772-1213. TTY users should call (800) 325-0778. You can also apply for extra help online at [socialsecurity.gov/prescriptionhelp](http://socialsecurity.gov/prescriptionhelp).

If you qualify for extra help with your Medicare prescription drug coverage costs, Medicare will pay all or part of your plan premium. If Medicare pays only a portion of this premium, we will bill you for the amount that Medicare doesn't cover.

**Please select a premium payment option (If you don't select a payment option, you will get a bill each month):**

- Get a bill**
- Automatic deduction from your monthly Social Security or Railroad Retirement Board (RRB) benefit check**  
The Social Security/RRB deduction may take two or more months to begin after Social Security or RRB approves the deduction. In most cases, if Social Security or RRB accepts your request for automatic deduction, the first deduction from your Social Security or RRB benefit check will include all premiums due from your enrollment effective date up to the point withholding begins. If Social Security or RRB does not approve your request for automatic deduction, we will send you a paper bill for your monthly premiums.

- Electronic Funds Transfer (EFT) from your bank account each month**

## 8. Terms and Conditions (Please read and sign below)

### By completing this enrollment application, I agree to the following:

MedMutual Advantage HMO and PPO plans are Medicare Advantage plans offered by Medical Mutual through a contract with the federal government. I will need to keep my Medicare Parts A and B. I can be in only one Medicare Advantage plan at a time, and I understand that my enrollment in this plan will automatically end my enrollment in another Medicare health plan or prescription drug plan. It is my responsibility to inform you of any prescription drug coverage I have or may get in the future. Enrollment in this plan is generally for the entire year. Once I enroll, I may leave this plan or make changes only at certain times of the year when an enrollment period is available (Example: October 15 – December 7 of every year), or under certain special circumstances.

Each MedMutual Advantage plan serves a specific service area. If I move out of the area that my plan serves, I need to notify Medical Mutual so I can disenroll and find a new plan in my new area. Once I am a member of Medical Mutual, I have the right to appeal plan decisions about payment or services if I disagree. I will read the Evidence of Coverage document from Medical Mutual when I get it to know which rules I must follow to get coverage with this plan. I understand people with Medicare aren't usually covered under Medicare while out of the country except for limited coverage near the U.S. border.

For HMO plans, I understand I must get all my healthcare from network providers, except for emergency or urgently needed services or out-of-area dialysis services. For PPO plans, I understand using services in-network can cost less than using services out-of-network, except for emergency or urgently needed services or out-of-area dialysis services. If medically necessary, Medical Mutual provides refunds for all covered services, even if I get services out of network. For HMO and PPO plans, to get in-network coverage for out-of-area dialysis services, I understand I must be temporarily outside the plan's service area and use a Medicare-certified dialysis facility. Services authorized by Medical Mutual and in my Evidence of Coverage will be covered. **Without authorization, neither Medicare nor Medical Mutual will pay for the services.**

I understand if I am getting assistance from a sales agent, broker or other individual employed by or contracted with Medical Mutual, he/she may be paid based on my enrollment in Medical Mutual.

### Proxy

I appoint the Secretary of Medical Mutual of Ohio as my proxy to act for me at any annual or special meeting of the members of Medical Mutual of Ohio. The Secretary will act as fully and to the same extent that I could act if personally present at the meeting. This proxy will be in effect for 10 years from the date of my signature below or the effective date of my coverage, whichever date is later. This proxy may be taken back at any time by mailing a letter to the Secretary.

### Email Address

I understand if I have included my email address in this application, I am authorizing Medical Mutual to send me an email confirming it received my application and/or information about how to opt in to receive additional email communications. All other communications, including whether or not my application was approved for coverage will be sent by mail to the permanent address or mailing address I provided in Section 2. Medical Mutual will not sell my email information and will only send me email communications that I agree to receive by email.

### Release of Information

By joining this Medicare health plan, I acknowledge that Medical Mutual will release my information to Medicare and other plans as is necessary for treatment, payment and healthcare operations. I also acknowledge that Medical Mutual will release my information including my prescription drug event data to Medicare, who may release it for research and other purposes that follow all applicable federal statutes and regulations. The information on this enrollment form is correct to the best of my knowledge. I understand if I intentionally provide false information on this form, I will be disenrolled from the plan.

Medical Mutual will use and disclose your information as permitted by law and consistent with Medical Mutual's Notice of Privacy Practices (available at MedMutual.com or by calling (800) 982-3117 (TTY 711 for hearing impaired)).

I understand my signature (or the signature of the person authorized to act on my behalf under the laws of the state where I live) on this application means I have read and understand the contents of this application. My actual effective date will be based on my eligibility.

**MedMutual Advantage Select (PPO)**

**MedMutual Advantage Preferred (PPO)**

**MedMutual Advantage Premium (PPO)**

MedMutual Advantage HMO and PPO plans are offered by Medical Mutual of Ohio under a contract with Medicare. Enrollment in these plans depends on contract renewal.

# Summary of Benefits

**This booklet gives you a summary of what we cover and what you pay. It doesn't list every service that we cover or list every limitation or exclusion. To get a complete list of services we cover, call us and ask for the Evidence of Coverage.**

You have choices about how to get your Medicare benefits

- One choice is to get your Medicare benefits through Original Medicare (fee-for-service Medicare). Original Medicare is run directly by the federal government.
- Another choice is to get your Medicare benefits by joining a Medicare health plan (such as MedMutual Advantage Select (PPO), MedMutual Advantage Preferred (PPO) and MedMutual Advantage Premium (PPO)).

## Tips for comparing your Medicare choices

This Summary of Benefits booklet gives you a summary of what MedMutual Advantage Select (PPO), MedMutual Advantage Preferred (PPO) and MedMutual Advantage Premium (PPO) covers and what you pay. If you want to compare our plan with other Medicare health plans, ask the other plans for their Summary of Benefits booklets. Or use the Medicare Plan Finder on Medicare.gov.

If you want to know more about the coverage and costs of Original Medicare, look in your current "Medicare & You" handbook. View it online at Medicare.gov or get a copy by calling (800) MEDICARE (800) 633-4227, 24 hours a day, seven days a week. TTY users should call (877) 486-2048.

# Summary of Benefits

## **What do we cover?**

Like all Medicare health plans, we cover everything that Original Medicare covers—and more.

- Our plan members get all of the benefits covered by Original Medicare. For some of these benefits, you may pay more in our plan than you would in Original Medicare. For others, you may pay less.
- Our plan members also get more than what is covered by Original Medicare. Some of the extra benefits are outlined in this booklet.

We cover Part D drugs. In addition, we cover Part B drugs such as chemotherapy and some drugs administered by your provider.

- You can see the complete plan formulary (list of Part D prescription drugs) and any restrictions on our website, [MedMutual.com/medicare](http://MedMutual.com/medicare).
- Or call us and we will send you a copy of the formulary.

## **How will I determine my drug costs?**

Our plan groups each medication into one of five tiers. You will need to use your formulary to locate what tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug's tier and what stage of the benefit you have reached. Later in this document, we discuss the benefit stages that occur after you meet your deductible: Initial Coverage, Coverage Gap and Catastrophic Coverage.

<p><b>Coverage Gap</b></p>	<p>Most Medicare drug plans have a coverage gap (also called the “donut hole”). This means that there’s a temporary change in what you will pay for your drugs. The coverage gap begins after the total yearly drug cost (including what our plan has paid and what you have paid) reaches \$3,310.</p> <p>After you enter the coverage gap, you pay 45% of the plan’s cost for covered brand name drugs and 58% of the plan’s cost for covered generic drugs until your costs total \$4,850, which is the end of the coverage gap. Not everyone will enter the coverage gap.</p> <p>Under this plan, you may pay even less for the brand and generic drugs on the formulary. Your cost varies by tier. You will need to use your formulary to locate your drug’s tier. See the chart that follows to find out how much it will cost you.</p>

**MedMutual Advantage Preferred (PPO)****MedMutual Advantage Premium (PPO)****Prescription Drug Benefits (cont.)**

If you reside in a long-term care facility, you pay the same as at a retail pharmacy.

You may get drugs from an out-of-network pharmacy, but may pay more than you pay at an in-network pharmacy.

Most Medicare drug plans have a coverage gap (also called the “donut hole”). This means that there’s a temporary change in what you will pay for your drugs. The coverage gap begins after the total yearly drug cost (including what our plan has paid and what you have paid) reaches \$3,310.

After you enter the coverage gap, you pay 45% of the plan’s cost for covered brand name drugs and 58% of the plan’s cost for covered generic drugs until your costs total \$4,850, which is the end of the coverage gap. Not everyone will enter the coverage gap.

Under this plan, you may pay even less for the brand and generic drugs on the formulary. Your cost varies by tier. You will need to use your formulary to locate your drug’s tier. See the chart that follows to find out how much it will cost you.

Standard mail order cost-sharing:

- Tier 1 (preferred generic)
  - One-month supply: \$0 copay
  - Two-month supply: \$0 copay
  - Three-month supply: \$0 copay
- Tier 2 (non-preferred generic)
  - One-month supply: \$12 copay
  - Two-month supply: \$18 copay
  - Three-month supply: \$24 copay
- Tier 3 (preferred brand)
  - One-month supply: \$47 copay
  - Two-month supply: \$71 copay
  - Three-month supply: \$94 copay
- Tier 4 (non-preferred brand)
  - One-month supply: \$100 copay
  - Two-month supply: \$150 copay
  - Three-month supply: \$200 copay
- Tier 5 (specialty tier)
  - One-month supply: 33% of the cost
  - Two-month supply: 33% of the cost
  - Three-month supply: 33% of the cost

You have choices about how to get your Medicare benefits

- One choice is to get your Medicare benefits through Original Medicare (fee-for-service Medicare). Original Medicare is run directly by the federal government.
- Another choice is to get your Medicare benefits by joining a Medicare health plan (such as MedMutual Advantage Classic (HMO) or MedMutual Advantage Choice (HMO)).

## Tips for comparing your Medicare choices

If you want to compare our plan with other Medicare health plans, ask the other plans for their Summary of Benefits booklets. Or use the Medicare Plan Finder on Medicare.gov.

If you want to know more about the coverage and costs of Original Medicare, look in your current "Medicare & You" handbook. View it online at Medicare.gov or get a copy by calling (800) MEDICARE ((800) 633-4227), 24 hours a day, seven days a week. TTY users should call (877) 486-2048.

# Summary of Benefits

## **What do we cover?**

Like all Medicare health plans, we cover everything that Original Medicare covers—and more.

- Our plan members get all of the benefits covered by Original Medicare. For some of these benefits, you may pay more in our plan than you would in Original Medicare. For others, you may pay less.
- Our plan members also get more than what is covered by Original Medicare. Some of the extra benefits are outlined in this booklet.

We cover Part D drugs. In addition, we cover Part B drugs such as chemotherapy and some drugs administered by your provider.

- You can see the complete plan formulary (list of Part D prescription drugs) and any restrictions on our website, [MedMutual.com/medicare](http://MedMutual.com/medicare).
- Or call us and we will send you a copy of the formulary.

## **How will I determine my drug costs?**

Our plan groups each medication into one of five tiers. You will need to use your formulary to locate what tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug's tier and what stage of the benefit you have reached. Later in this document, we discuss the benefit stages that occur after you meet your deductible: Initial Coverage, Coverage Gap and Catastrophic Coverage.

<p><b>Coverage Gap</b></p>	<p>Most Medicare drug plans have a coverage gap (also called the “donut hole”). This means that there’s a temporary change in what you will pay for your drugs. The coverage gap begins after the total yearly drug cost (including what our plan has paid and what you have paid) reaches \$3,310.</p> <p>After you enter the coverage gap, you pay 45% of the plan’s cost for covered brand name drugs and 58% of the plan’s cost for covered generic drugs until your costs total \$4,850, which is the end of the coverage gap. Not everyone will enter the coverage gap.</p>	<p>Most Medicare drug plans have a coverage gap (also called the “donut hole”).
